

Technical and Topical

A monthly review of SNAME T&R Program & Publications news including Committee & Panel Work, New Papers, Symposia & more

SNAME Staff Contact: Mark Eichler ♦ 201.499.5069 ♦ meichler@sname.org

March 2010

WELCOME to TECHNICAL and TOPICAL

Technical and Topical (which we are abbreviating to TnT at HQ) is the brainstorm of many members who have requested a simple update as to the **SNAME-specific events and activities generating new technical content**. The focus of TnT will be on the new papers coming out of T&R Committees and Panels, Symposia across the Society, SNAME Featured Papers, T&R news, and other vital content. To this end, TnT will be short on text and heavy on links.

TnT will be member driven. When you have SNAME-specific news to bring to the attention to the rest of the Society, please send it along. General T&R Committee news is appropriate. Do you have a new T&R panel chair? A paper published? Microsite now online? Let me know, I'll be happy to help you get the word out. **In the future, if you are wondering why your news isn't in TnT, it is probably because you didn't send it to me!**

I look forward to hearing from you, Mark Eichler, SNAME Web & Communications Strategist

COMPLETED SYMPOSIA & PROCEEDINGS

[Climate Change & Ships: Increasing Energy Efficiency](#) February 16-17

Over 100 members and nonmembers, and the facilities at MITAGS, made this symposium a great success. PowerPoint enriched video of the keynote presentation of Christopher Grundler, EPA Deputy Director is available online with PDFs of other PowerPoint presentations. *Proceedings, with over a dozen high-quality papers, will be available in the very near future.* [Request your Proceedings copy online.](#)

UPCOMING SYMPOSIA

[Chesapeake Powerboat Symposium](#) ♦ March 19-20 ♦ Baltimore, USA

This symposium covers the latest Power Boat developments. Topics include: Hull Design, Analysis Materials and Fabrication; Offshore Racing and many others. *Most papers have been approved for PE continuing education credit.*

[Operating Ships within Emission Controlled Areas](#) ♦ April 28-29 ♦ San Francisco, USA

Examining the operational issues and practical experiences of fuel switching from multiple view points. Panel discussions will encourage dialog between all interested parties. Registration is now open - [register online now](#).

SNAME FEATURED PAPER

[Origin and Characteristics of the Spray Patterns Generated by Planing Hull](#)

by Prof. Daniel Savitsky and Michael Morabito

Go to the SNAME.org homepage to view the PowerPoint-embedded video of Dr. Savitsky's presentation before the New York Metropolitan Section, March 9, 2010. *SNAME Featured Papers are a benefit of membership in SNAME!*

IN THE JOURNALS

[New Journal! \(mt\) Release Date April 1](#)

Marine Technology & SNAME News is being reborn as (*mt*). SNAME members can preview the new journal online now. This one is worth the bookmark: www.sname.org/sname/mt

[OPEN CALLS FOR PAPERS](#)
